IQUA Active

Iqua Active WHS-701 - Workout Headset

The Iqua Active features a host of tools to help you make real-time adjustments to your workouts – measure your heart rate, calculate your steps, stay on top of your calorie consumption, or double-tap the headset to hear real-time fitness information read aloud through your headphones.

The Iqua Active also comes with a USB dongle for easy data transfer, as well as PC software managing your daily workouts and user settings. This versatile device also comes equipped with a 3.5 mm connector, high-quality earphones and a master volume slider, making it easy to enjoy and control music from your compatible iPod, phone, or MP3 player. And for Nokia phone users, simply connect the Iqua Active to your compatible Nokia phone for handsfree call connectivity during your next workout.

Unique Selling Propositions

- Hear current fitness information read aloud through your headphones by simply tapping the headset
- Measure your heart rate, calculate your steps, and monitor your calorie consumption
