

# Iqua Touch – BHS-803

## Bluetooth® Wireless Headset

Taking handsfree headsets to the next level, the innovative Iqua Touch puts complete call control at your fingertips. Gently touch the body of this sleek headset to answer or end calls, adjust the volume, mute or un-mute the microphone, redial or voice dial phone numbers, or check real-time power status.

And with up to 60 hours of standby time, noise-cancelling DSP technology, and the ability to keep two devices simultaneously connected, the Iqua Touch makes it easy to keep in touch with others while on the move.

### Unique Selling Propositions

- Designed with innovative touch-sensitive body
- Answer/end/reject call
- Adjust the volume
- Redial last number
- Activate voice dialing
- Mute microphone
- Dedicated power key
- Noise-cancelling DSP – one microphone for capturing sound and one for eliminating background noise
- Multipoint – keep two device simultaneously connected and switch easily between phone and handsfree modes
- Call waiting
