

iqua

Iqua VizorSUN2 – PHF-613 Bluetooth® car handsfree

Harness the power of the sun from behind the wheel. With unlimited talk time via a cutting-edge solar cell, a handy clip-on design and a selection of innovative call-control features, the solar-powered Iqua VizorSUN2 makes it even easier to keep the conversation going while on the road.

The Iqua VizorSUN2 also boasts cutting-edge DSP technology for added noise reduction and echo cancellation, ensuring that every call is clear on both ends of the line. And with support for text-to-speech, incoming caller announcements and voice commands, you won't have to worry about reaching for your phone to manage your calls.
